WILD'S "STRAIGHT LINE" INLAIDS

THE most durable, the most reliable and the most satisfactory figured Linoleums are Wild's "Straight Line" Inlaids. Years and years of the severest usage have but little effect upon the clearness and regularity of their patterns. Properly laid, they are almost indestructible.

The best raw materials, a most thorough system of mixing, special patented processes of inlaying, a direct welding pressure of several thousand pounds to the square inch, and thorough seasoning—all combine to make Wild's Inlaids the first in quality, durability and reliability.

Usage furnishes the proof. Further evidence is found in the extensive retail sales, and the tremendous output of the largest and oldest Linoleum factory in the United States.
